

International Interfacings / Stabilizer Comparison Chart

Hello Friends!

I have many folks worldwide enjoying my sewing patterns so I've created an interfacing comparison chart to help you find the right materials in your country to complete your project.

These great folks helped me identify comparable products to use that are similar to the interfacings I speck on my sewing patterns. Thank you, Pellon® North America, Liz Sewell from "The Cotton Patch", UK and Lynne Wilson from "Highland Quiltworks" in Australia.

This chart identifies the name of the products I use in my patterns and list similar products used in Europe and Australia. **Please note: These are not exactly the same as the US products, but similar in hand and weight.**

I hope you find this chart helpful. But as always if you have suggestions, hints or tips in using these products, please let me know, I'd love to hear from you: Please email me at amyb@amybutlerdesign.com

Happy Sewing!
Amy

United States	Europe	Australia
